

Send and Receive Faxes from anywhere No Fax Machine Needed!

Virtual Faxing

Businesses have transformed into a world where employees are mobile and no longer tethered to a desk, office or a physical fax machine.

Instead, most staff enjoy the flexibility of a virtual business world and businesses reap the productivity rewards by implementing virtual technology that enables an always available, always responsive work force.

Business Fax is a tool that provides a virtual, dedicated fax number available anywhere, anytime with inbound and outbound faxing capability.

Business Fax

- Fax on the go with the App for iOS and Android
- Manage and send faxes using a web portal or App
- Maintain existing fax number or get a new fax number
- Fax files from Dropbox, One drive, Google Drive, Box, etc.
- Create fax from smartphone photos
- Fax securely with fax password protection
- Forward faxes as email
- Faxes available in Tiff and PDF format
- Unlimited Pages and Number of faxes for one low price

Features

Inbound

Receive unlimited faxes to your virtual inbox with a dedicated fax Number. Having a dedicated, personal faxing service means less busy signals.

Business Fax will encrypt the received Fax and provides an encrypted PDF, using standard encryption used by traditional faxes.

Outbound

Generate outbound faxes using a simple easy to use interface on your phone or via web tool. Attach faxes in various formats stored in a wide range of libraries.

Send faxes directly from any email account.

Management

Forward as email, save as pdf. Save to Cloud (Drop Box, Google Drive, OneDrive or private cloud account).

Manage your Faxes from both mobile devices and desktop computers via a simple to use app or web portal.

Eliminate the need for:

- ✓ A separate Fax line
- ✓ A Fax machine
- ✓ Fax Maintenance Fees
- ✓ Fax Paper
- ✓ Toner

Reasons to Use Business Fax

Grow

- Speed up the time it takes to receive and process orders and contracts.
- Increase your productivity by sending and receiving faxes instantly from anywhere.

Manage Costs

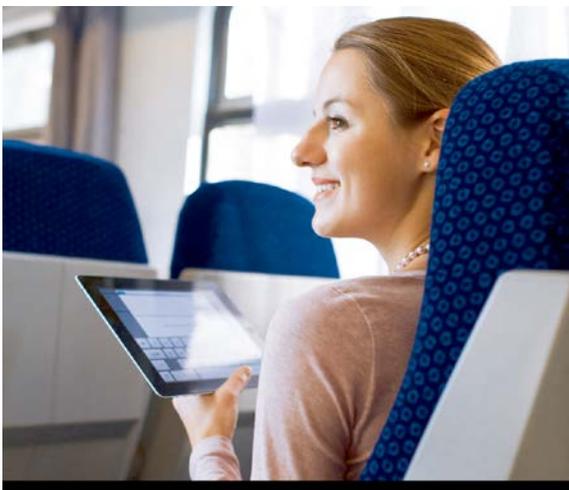

- Eliminate the need for a fax line and the surcharges that go with it.
- Save money on fax toner and paper.
- No limit or overage charges on the number of pages or number of faxes.
- Pay by the month – no long-term contracts, no penalties, no physical infrastructure costs.

Manage Time

- Don't waste time waiting by a fax machine.
- No need to return to the office or stop by a print store. Faxing is with you everywhere you go and accessible on your mobile app.

Reduce Risk

- Leverage the same encryption technology used as traditional faxing
- Use an account that is private and secure
- Delivered using a secure network that is monitored and managed by your service provider
- Eliminate privacy concerns with faxes left on a shared fax machine

Why Business Fax?

- ✓ Access your business faxes from anywhere using your smart or mobile phone.
- ✓ Send outbound faxes from your mobile phone without sharing your personal mobile phone number.
- ✓ Enjoy the professionalism of a Business Fax that you can share with customers, prospects or business partners.
- ✓ App easily downloadable from App stores.
